Introduction

Health is a state of complete physical, mental, social and spiritual well-being and not merely the absence of disease or infirmity. Holistic Health includes Yoga, Naturopathy, Acupressure, Acupuncture, Neurotherapy, Chiroprathy, Electro Homeopathy and other drugless system which are ancient Indian theories and practices, focusing on unifying mind, body, spirit and promoting strength, balance & flexibility.

Health and well being can be influenced by our present lifestyle change and psychological stress.

Holistic Health mainly emphasizes on returning to the nature by correcting our lifestyle by following simple natural laws, application of simple treatments based on the principles.

Objectives of the Conference

- To bring a broader awareness among public about the utility of Yoga Holistic Health in treatment of diseases.
- To disseminate the existing knowledge of Holistic Health to the practitioners and health workers.
- To provide assistance to institute and persons working in the field of Holistic Health.
- To strengthen Holistic Health institutes and NGOs to plan, implement a evaluate projects in rural, urban, tribal, slums and other areas in India abroad.
- To promote a holistic understanding of health through the integration of Yoga, Ayurveda, and modern wellness practices.
- To provide a global platform for researchers, practitioners, educators, and health professionals to share knowledge and experiences in yoga and holistic health.
- To highlight the role of yoga and holistic therapies in disease prevention, mental well-being, and sustainable health care.
- To encourage scientific research, innovation, and evidence-based practices in yoga and holistic health.
- To foster international collaboration and networking among institutions and professionals working in health and wellness.
- To inspire individuals and communities to adopt healthy, balanced, and mindful lifestyles for overall well-being.

Chairman's Welcome Address

to all Guest/Speakers/Delegates

Respected guests, eminent speakers, distinguished delegates, scholars, practitioners, and dear participants from across the globe,

It is my great honor and privilege to extend a warm and heartfelt welcome to all of you to the International Conference on Yoga and Holistic Health 2026, being held in the sacred land of Rishikesh, reverently known as Rishiyon ki Nagri — the land of sages.

We are deeply grateful for your presence and participation. Your valuable knowledge, experience, and dedication to the fields of yoga, wellness, and holistic health enrich this conference and make it a truly global confluence of wisdom, science, and spirituality.

Rishikesh is not merely a destination; it is a spiritual and divine energy center. Nestled in the foothills of the Himalayas and blessed by the holy river Ganga, this ancient city has been a sanctuary for sages, yogis, and seekers for thousands of years. It is here that yoga evolved as a way of life — integrating body, mind, and soul.

The spiritual vibrations of Rishikesh naturally support inner healing, mental clarity, and spiritual awakening. The serene environment, sacred temples, ashrams, and the continuous flow of the Ganga create an atmosphere ideal for meditation, self-reflection, and holistic well-being. Practicing yoga and meditation in this divine city enhances physical health, reduces stress, balances emotions, and nurtures inner peace.

Rishikesh stands as a global capital of yoga and holistic health, inspiring humanity to live in harmony with nature, promote preventive healthcare, and embrace a balanced lifestyle rooted in ancient wisdom and modern science.

On behalf of the organizing committee, I once again extend my sincere gratitude to all our honored guests, speakers, and delegates. May this conference foster meaningful dialogue, knowledge exchange, and collaborative efforts toward global health, peace, and well-being.

I wish you a spiritually enriching, intellectually stimulating, and memorable experience here in the divine city of Rishikesh.
